

New Magneto Available

Alnico 5 cast and ground magnets, machined keepers. Brass flywheel with hex drive insert. (Insert has taper to fit Dooling crank taper, perfect alignment) Correct steel for laminates (poles). Billet machined bracket (made for Dooling - can be adapted to others) Smith coil canister with custom wound coil (gives better spark than original Firecracker) Unit is wired and ready for installation. Comes with a copy of Hornet magneto instructions. Additional parts available soon. First class craftsmanship throughout.

\$450.00
