EDITORIAL

Liebe Sportfreunde,

wie jedes Jahr können Sie in dieser Broschüre sowohl Ihre gefahrenen Geschwindigkeiten als auch die Ergebnisse Ihrer Konkurrenten in kompakter Form nachlesen.

Die EM in Kapfenhardt (D) und die WM in Sydney waren die Highlights der Saison mit zum Teil recht guten Ergebnissen.

Mit grosser Freude ist die Entwicklung in der Klasse V (10ccm) zu beobachten, die hauptsächlich durch die Angebote der Firma Picco mit ihrem „ready to run“ Modellrennautos erzielt wurden. Es sind bis heute circa 28 Modellautos ausgeliefert worden. Dies wird in der Klasse IV(5ccm) mit circa 12 Fahrzeugen eine Fortsetzung finden.

In diesem Heft befindet sich das Protokoll der WMCR Sitzung in Sydney mit der einhelligen Meinung darüber, dass sich in der Entwicklung unseres Modellsports neue Tendenzen erkennen lassen (RC Benutzung, Elektromotoren als Antrieb).

Auf dieser Sitzung habe ich mich sehr für die WM 2013 engagiert. Bis zu diesem Termin werden wir jedoch noch einige Versuche in organisatorischer- und sportlicher Hinsicht unternehmen, um den Appetit und die Attraktivität unseres Hobbys zu steigern.

Im Jahr 2011 findet in Tallinn die Europameisterschaft statt. Bei dieser wird es eine grosse sportliche Herausforderung sein, sich gegen das „dream-team“ von Estland behaupten zu können.

Unser Reglement gilt bindend bis ins Jahr 2013. Um unseren Sport weiter voranzubringen, sollten wir im Training oder teilweise auch auf Wettkämpfen offen dafür sein, kleinere Anpassungen oder Veränderungen probeweise vorzunehmen.

Die Veranstalter bitte ich, die Teilnehmer rechtzeitig über solche Wettbewerbsveränderungen zu informieren.

Auf unserer GV haben wir über ein neues, zuschauerfreundliches Computerprogramm diskutiert. Das Präsidium arbeitet an dieser Aufgabe.

Allen Aktiven wünsche ich höhere Geschwindigkeiten für ihr Modellauto und hoffe sie bald bei bester Gesundheit auf den Rennen wieder zu treffen.

Mit freundlichem Gruss

Paul-Otto Ströbel

EDITORIAL

Dear sports friends,

Just like every year, you will find in this brochure both your personal speeds and the results of your competitors in a compact form.

The EC in Kapfenhardt (DE) and the WC in Sydney (AU) were the highlights of the season with some pretty good results.

It is with great joy that we witness the development of class V (10 ccm), which was mainly achieved through the company Picco with their "ready to run" model cars. By today they have delivered already about 28 model cars. This will be continued in class IV (5 ccm) with about 12 model cars.

In this issue you will find the minutes of the WMCR board meeting in Sydney. There the unanimous opinion was that to further develop our sport new trends (using the RC, electric motors) could be introduced to speedmodelcar racing.

At this meeting I committed myself to the 2013 WC. By that time we will make a few attempts in organizational and sporting terms to increase the appetite for and attractiveness of our hobby.

In 2011, the EC will be held in Tallinn (EE). This will be a huge sporting challenge, a great opportunity to compete against the "dream team" of Estonia.

Our regulations apply until 2013. In order to further promote our sport we should be open about making some minor adjustments or changes on trial basis in our training or competition methods. The organizers ask that all participants were informed of such changes in due time.

At our General Meeting we also discussed getting a new, spectator-friendly computer program. The Board is working on this task.

I wish all drivers high speeds for your model cars, and I hope to meet you soon in good health at the races.

Best regards,

Paul-Otto Ströbel

5. Bericht des Präsidenten P.O.Ströbel zu der abgelaufenen Rennsaison 2009/2010

Zuerst bedankte sich P.O Ströbel bei dem Schwedischen Modell Auto Verband, unter der Leitung von Nils Björk für die sehr gut organisierte EM in Örebro in 2009.

Vor allem die Erstellung einer Videokassette über die EM, die sehr professionell gemacht wurde, bildet die beste Werbung für unseren Sport. Sie ist eine sehr gute Visitenkarte bei Kontakten mit Sponsoren, öffentlichen Ämtern und Neueinsteigern.

In der Saison 2009 hat es keinen Unfall bei Rennen auf den Pisten gegeben. Dies ist das Ergebnis unserer Sicherheitsverbesserung in unserem Reglement alle Bahnen innerhalb 3 Jahren regelmässig zu kontrollieren.

Zufrieden zeigte sich P.O.Ströbel, dass jetzt die neuen Modelle in der 10ccm Klasse von der Firma PICCO geliefert werden und man dadurch neue Mitglieder anlocken und finden wird. Die bisher guten Rennergebnisse dieser Modelle haben ihre Wirkung. Im kommenden Winter ist eine Serie von 5ccm Modell bei der Fa. PICCO in Vorbereitung, die dann im Jahr 2011 auf dem Markt „Ready to run“ kommen werden.

Das Präsidium macht sich Gedanken über die Trends von ähnlichen Sportarten wie Fesselflieger- und Fesselnrennbootorganisationen, die Elektroantrieb, Hybridantrieb und die ferngesteuerte Beeinflussung des Rennlaufs bereits in ihrem Reglement aufgenommen haben.

Der Präsident schloss seinen Bericht mit der Hoffnung, dass hier in Deutschland, in Kapfenhardt, es ein spannender Wettkampf werden wird und wünschte den Teilnehmer hohe Geschwindigkeiten.

6. Kassenbericht von P. Arlautzki

Im vergangenen Geschäftsjahr 2009/2010 hatten wir totale Einnahmen von € 4 103,73 und totale Ausgaben von € 3 970,10 €. Wir haben zurzeit € 12 165,83 in Aktiva der FEMA. Alle Länder haben die Länderbeiträge und die Lizenzgebühren bezahlt. Eine Erfolgsrechnung wird an die Delegierten verteilt.

P.O. Ströbel started by thanking the Swedish Modelcar Union for a very well organized EC in Örebro in 2009, supervised by Nils Björk. In particular, for making a video about the EC; it was done very professionally and is the best advertisement for our sport. It is a very good visiting card for sponsors, official authorities, and beginners.

In the season of 2009 we had no accidents in our racetracks during the races. This is the result of improvements in our safety regulations to regularly check all racetracks in every three years.

P.O. Ströbel was pleased that now also 10ccm cars are available by PICCO, which greatly helps us in finding new members and attracting them to the sport. With good results those cars have showed their power. PICCO is making preparations to launch in the coming winter the 5ccm series cars, which would come to the market in 2011 as a Ready-to-Run model.

The presidency is considering the trends in similar sport fields such as pylon racer and hydroplane model organizations that already have included the electric motor, hybrid transmission and radio-control handling during the run in their regulations.

The president closed his report expressing hope that it will be an exciting competition here in Germany, in Kapfenhardt, and wished the participants high speeds.

WMCR Protokoll vom Donnerstag, den 28. Oktober 2010 in Sydney

Anwesende: *Robert Buckley* *Australia*
 Phil Mc Donald *USA*
 Stuart Hamill *USA*
 P.O. Ströbel *Europa*

Als erstes begrüßte Herr Buckley die Anwesenden hier in Australien und sprach die Hoffnung aus, eine gute Weltmeisterschaft abzuwickeln.

Es folgten folgende Tagesthemen:

Kassenbericht von P.O. Ströbel:

In unserem letzten Treffen haben wir beschlossen, die Jahresgebühr von 50.-- Euro pro Kontinent und Jahr zu bezahlen. Weiterhin wurde vereinbart, den jeweiligen Veranstalter eine Organisationsbeihilfe von 500 € zu vergüten. Die alles wurde von P.O. durchgeführt. Lediglich die USA sind mit den letzten 3 Jahren in Zahlungsrückstand. Der Saldo per 1.10.2010 beträgt 376,21 € + die noch zu bezahlenden 150 € von den USA, die zugesichert wurden. Der nächste Beitrag wird 2013 in Bar in der Schweiz fällig.

Wo soll die nächste WM stattfinden?

Nach langer Diskussion machte die USA den Vorschlag, die WM in den USA durchzuführen. Wo dies sein wird, werde man 2011 erfahren. Nach Intervention auf diesen Vorschlag hin berichtet P.O. Ströbel, dass man in der Schweiz bereits für Basel grosse Vorbereitungen getroffen hätte. Auch die ersten Sponsoren hätte man für ein solches Event bereits an der Hand. Nach weiterführenden Gesprächen einigte man sich am nächsten Morgen einstimmig auf Europa, bzw. auf die Schweiz als Austragungsort der WM 2013. Die USA werde 2016, Australien 2019 Austragungsort der WM sein

Zukünftige Reihenfolge bei 3 Startvorgängen während einer WM:

1. Durchgang: von oben nach unten
2. Durchgang: von unten nach oben
3. Durchgang: vom Langsamsten zum Schnellsten

Weltrekord Anerkennung:

In den USA und in Australien werden Weltrekorde anerkannt, wenn Teilnehmer von mindestens 2 verschiedenen Clubs anwesend sind.
In Europa müssen für die Gültigkeit eines Weltrekordes Teilnehmer aus mindestens 3 verschiedenen Ländern am Wettbewerb teilnehmen.

Kabeltausch:

In den WMCR und in den FEMA Regeln gibt es noch Unterschiede in Bezug auf den Kabelwechsel. P.O. Ströbel wurde beauftragt, einen Vorschlag auszuarbeiten, dass zukünftig weltweit nur runde Km/h Einheiten zu einer Kabeländerung führen.

Neue Mitglieder:

Man ist sich einig darüber geworden, dass man Neuerungen offen gegenüber steht, um neue Mitglieder generieren zu können. Dies bezieht sich z.B. auf die Benutzung von RC während eines Rennlaufes. Auch die Entwicklung von Elektro-Fesselrennautos sollte in seiner Entwicklung als positiv gesehen werden.

10 ccm Klasse

Allgemeine Hochachtung wurden den Resultaten in der 10 ccm Klasse zugesprochen, nachdem die Firma Picco so viele Autos „ready to run“ gefertigt hatte. Ein Wunsch von Vielen ist es, wenn man dies auch auf andere Klassen übertragen könnte.

Robert Buckley schloss das Treffen mit dem Wunsch, dass die Teilnehmer einen unvergesslichen Eindruck von Australien und Sydney und dem Wettbewerb mit nach Hause nehmen, und wünschte allen Teilnehmern für das Rennen viel Glück.

In the USA and in Australia must be 2 competitors of 2 different clubs are present during the races. In Europe it was agreed that minimum presence of competitors from 3 different countries at race is accepted.

5. Cable change

In the WMCR and FEMA regulations hold discrepancies pertaining to regulations of changing cables. P.O. Ströbel has been commissioned to come up with proposals for future races where rounded entities of km/h be measured in case cables need changing.

6. New members

It was clear, that all members present agreed to be open to new innovations in order to generate new competitors.

This follows idea where new members are allowed to make use of RC during a run. The design and development of new electric fettered model cars is perceived with positive aspects.

Also everybody of the directors was happy to hear that a new member from Japan built a new track there.

7. 10 ccm Class

A great respect was brought up for the 10 ccm model cars which had been „ready-to-run“ production by Picco`s company. Other members expressed the wish that model cars in other categories be likewise produced.

Robert Buckley terminated the meeting by wishing all competitors present all the very best and hoped that they would carry home an unforgettable impression of the races held in Sydney, Australia.

Grand Slam – 2011

Seit 1997 führen wir eine **GRAND SLAM**-Wertung durch. Hier werden von den 6 aufgeführten rennen die 4 besten Ergebnisse gewertet. Die EM zählt einfach (einfache Punkte) und der letzte Wettbewerb zählt dabei doppelt (doppelt Punkte).

*Since 1997 we have had the **GRAND SLAM** ranking. Four best results out of the 6 competitions will be counted. The EC will score only the usual amount of points and the final GS stage will score double points.*

Renndaten / Dates of races:

- | | | |
|----|------------------|------------------------------------|
| 1) | 07.-08.05 | Pila, POLEN / POLAND |
| 2) | 11.-12.06 | Kapfenhardt, DEUTSCHLAND / GERMANY |
| 3) | 18.-19.06 | Örebro, SCHWEDEN / SWEDEN |
| 4) | 29.-31.07 | Tallinn, ESTLAND / ESTONIA |
| 5) | 20.-21.08 | Basel, SCHWEIZ / SWITZERLAND |
| 6) | 10.-11.09 | STRYI, UKRAINE |

Teilnahmebedingungen / Competition regulations:

Alle Teilnehmer an den GS Rennen werden automatisch mit in die Wertung aufgenommen und mit einem Auto pro Klasse gewertet. Gezählt wird logischerweise der Schnellste. Jede Klasse wird separat gewertet. Sollten zwei Teilnehmer in der Endwertung die gleiche Punktzahl erreichen, entscheidet die Platzierung die bessere Geschwindigkeit zuerst bei der Europameisterschaften oder danach zweitens bei der GS Endlauf.

All competitors of each GS race will be included automatically but only with one model car per class and, naturally, their fastest speed will be counted. Each of the five categories will be counted on its own. In case of two competitors having an equal sum of points after the last race, first, the driver with better speed at the European Championships, or, second, the driver with better speed at the GS final stage will get the better place.

Punktevergabe / Scoring of points:

Platz / Place	Punkte / Points
1.	10
2.	8
3.	6
4.	5
5.	4
6.	3
7.	2
8.	1

Die Punktevergabe folgt dem Schema gem. Tabelle.

Points will be calculated as shown in Table.
